Native Men's Wellness Retreat

In our communities we see men contribute and sometimes they don't take the time to rest and recover. This will lead to stress, overworked and exhaustion. These men need time to look back at their accomplishments and remember that they are valued and that they are needed to help the growth and development of their communities.

This retreat will encourage the positive growth of our Mental, Emotional and Spiritual "selves". You will experience laughter and fellowship while gaining new skills that will allow you to clear your mind for a more balanced life.

Our goals for this retreat will be to:

- Create Fellowship
- Encourage the contribution of Native Men in all aspects of their lives and in their Communities
- Educate Native Men with new skills and insights for Healing & Personal Growth
